

Sign Contracts with 80% Quicker Turnaround Time

On an average it takes about 3.4 weeks to complete the contract signing and approval process in the IT services industry (Source: Forrester). Why should you wait for such a long time when you can get the same work done with 80% quicker turnaround time using emSigner, eMudhra's new age paperless office solution.

emSigner can quickly digitize the complete contract signing workflow and allow you to electronically sign the contracts using electronic or digital signatures, thereby bringing in legal validity and non-repudiation into the process. Along the way our innovative digital signing and workflow management solution also helps your IT services company to minimize risk while automating and streamlining each step of a contract's life for both inbound and outbound transactions.

Here are some of the highlights of emSigner:

- emSigner supports collaborative review and editing of contracts prior to contract finalization
- Contract preparation with track changes and version controls
- Contract finalization using legally valid digital signatures
- Using emSigner, companies can get the contracts counter-signed by people from outside the organization with built-in KYC document upload facilities
- Contract closure within 30 minutes as against several hours
