

## eMudhra is Now A Member of the CA/Browser Forum

eMudhra adds another first to their illustrious list of achievements and this time it is the entry into the prestigious Certification Authority Browser Forum (CA/Browser Forum). The premier Certifying Authority, aimed at global CA operations, has been formally inducted as a member of the global consortium that promulgates industry guidelines governing the issuance and management of X.509 v.3. In doing so, eMudhra has become the first Indian CA to achieve this rare feat.

### **As a member of this elite consortium, eMudhra is likely to:**

- Be part of technical discussion and constructive decisions in 'server security working group' that is working towards continuous improvement in SSL and EV SSL procedures
- Suggest amendments to SSL policies/framework and keep them in synchronization with the current needs
- Contribute to prominent working groups and/or discussion towards strengthening of Code Sign and S/MIME certificate ecosystem
- Help small businesses to avail security certificates such as Single Domain SSL, Multi-domain SSL, Wildcard SSL, Code Signing Certificate, Secure Email Certificate and more for websites, mobile apps and applications in their locally feasible procedure
