

emSigner - The Most Secure Paperless Office

Did you know that an organization can save in excess of \$80/annum per employee by going paperless? This translates into \$32,000 per year for an organization with about 400 employees. That's a substantial chunk of savings, isn't it!

Than what are you waiting for? Join the paperless revolution with emSigner, eMudhra's market leading paperless office suite that is used by several Fortune 100 organizations to manage their workflows. eMudhra has tirelessly worked to make this feature loaded solution even more powerful by adding a new set of upgrades. This includes centralized DMS engine, workflow management engine, 2-factor authentication, tamper-proof audit logs, and even a hybrid QR technology that can be used to check the authenticity of the document (using a QR reader for online verification or emSigner app for offline verification). All this makes emSigner the go-to solution to make a seamless paperless shift.

Here are some key features of emSigner:

- emSigner communications are encrypted to the highest standards with a tamper-proof document-level audit trail, and system-level audit trail
- emSigner gives the liberty for signers to review and sign documents individually or in bulk
- emSigner supports most global signature standards including the US eSign Act, eIDAS, Indian IT Act, UNCITRAL Model Act and more
