

# emSigner: AI Enabled Document Processing Automation Solution for SAP Customers

Automating the contracting to procurement to payment lifecycle, creating a single source of truth for all your document signing and approval workflows.

## Value Proposition

Sign and send documents via a one-click process

Track the status (i.e. sent/ delivered/ completed/ declined and so on) of the documents without moving out of the SAP platform

Once the required action has been completed, retrieve the document automatically as a signed PDF document via a one-click process

Support for bulk signing of documents

What's more, SAP customers can also do more than signing using emSigner, eMudhra's AI enabled digital signing and document processing automation solution. This includes:

Manage documents

Automate workflows

Create single source of truth
